## Welcome In Young NRG Productions

One of the most innovative labels in Italy, officially started in 2001 but established in 1989, is one of the few that creates an international music networking. Founder and manager of Young NRG Stefano Ricci (aka Dj Stex), together with Teo Ederle, founder of Lao-tsu Productions, Young NRG Productions offers a choice of 30 different musical genres from House, Electro, D'n'B, Breakbeat, Lounge, Chillout, ElectroHouse, Progressive, to list some. Definitely worth giving it a good check and... give support to independent labels !!

**Young NRG** owns and operates a music record label. It offers Talent Pool, a Web-based platform to stimulate the development of dj talent and to solve the problems of sending demos to a record label and ending in a pile of demos without feedback on the music tracks and artists. The company was founded in 1989 and is based in Bologna, the Italy.
